

# Children's Aid Workers On Strike in York Region!

Our employer thinks we can continue to protect kids under a crippling workload.

We said enough is enough! We can no longer compromise child protection services.

Our workload is driving away frontline staff at an alarming rate. In a two-year period we lost 50 per cent of our staff, with most leaving to work at other CAS agencies.

Our employer thinks it is acceptable that our wages are lower than all other CAS agencies in the region. York CAS workers are not second class citizens.

We deserve a fair deal.

Call Martin McNamara and let him know that quality child protection services in York Region are important to you.
