

You can help us get back to the table and end the strike at the Ontario Teachers' Pension Plan. Here's how:

A message to OTPP members from OPSEU Local 598

May 2006

Dear brothers and sisters:

Our local represents the front-line workers and support staff of the Ontario Teachers' Pension Plan. We have now been on strike almost a month, because of management's unwillingness to even negotiate a new contract.

We are the ones who deal with both active and retired teachers and resolve your problems on a daily basis. Without us, this work is not getting done. We need your help now to get our employer back to the bargaining table.

Each of the four OTF Affiliates (OSSTF, ETFO, AEFO, OECTA) have pledged support to our cause. They have or will be contacting you for your assistance.

We are asking you to help us get our message to all of the teachers at your schools. We need you to please copy and deliver the enclosed flyers to all of your teachers with your personal message to contact the Teachers' Pension Plan and to visit our website to sign our petition. We have also enclosed a poster which we hope you will display.

We want to get back to work to provide the outstanding service that Ontario teachers have come to expect and deserve. We need your help. Please work with us to get our message out so we can get back to the table.

If you need more information, you can call me at 416-939-0947 or Marg Penny, Vice-President at 416-557-5332.

In solidarity,

Andy Kayser,
President, OPSEU Local 598
