

Strike at OTPP

Why you should be concerned?

There are 264,000 active and retired qualified teachers in Ontario. One of the best ways to recruit and retain strong teachers is to compensate them fairly, including after retirement.

The **Ontario Teachers' Pension Plan** always promises "*Outstanding service today, retirement security tomorrow.*" But, on **April 22, 2006**, they violated one of those commitments. By forcing 255 front-line staff on **strike** they have seriously harmed the quality of service provided to all teachers and retirees.

Each day that OTPP's highly trained and qualified service providers are on the picket lines, the more the level of service is jeopardized.

You have the power and right to demand that the management team listen. Force them to stop hiring scabs and return to the bargaining table now.

Demand action today!

To exercise your right and demand urgent action by the OTPP, please call today: 416-226-2700 or 1-800-668-0105 (toll-free).
