

Whatever it takes!

Bargaining information for OPSEU-HPD members

Issue sheet #2

Who's irresponsible?

The hospitals and the OHA have been saying that our actions in the hospital will put patient care at risk.

Just who is putting the public at risk?

Hospitals that refuse to pay wages that will attract and retain sufficient staff.

Hospitals that overwork us and call us in repeatedly in the middle of the night, when we're exhausted and prone to error.

The OHA who refuses to negotiate a central agreement in good faith and is letting shortages get out of hand.

That's who's putting the public at risk.

Tell the OHA and the hospitals how you feel about this insult of an offer that does not address our intolerable working conditions.

Give the team your commitment you will do whatever it takes to get the best deal now!

The boss is!
