Fax: 416-325-7578

Dear Mr. Eves:

I am a customer of the Province of Ontario Savings Office and a concerned citizen of the Province of Ontario.

I would like you to save the People's Bank - the Province of Ontario Savings Office - so it can continue to provide banking services to families and senior citizens in communities across Ontario, and so people in small towns will not be forced to go to private, for profit banks. I have heard you will be a Premier that will be **willing to listen and act** for the people of Ontario.

I understand you were instrumental in saving the LCBO from privatization, because you saw it lacked common sense. I am now asking you to stop the sale of the Province of Ontario Savings Office that the Minister of Finance, Jim Flaherty, has set in motion.

Upon investigation you will find that the service that the Province of Ontario Savings Office delivers to their customers will not be equal or better in the private sector. This sale or privatization lacks common sense.

I await your response to my concerns.

Yours truly,

Name and address:
