

Do YOU use roads?

cord is clear:

ion costs more.

ion endangers public safety.

ion means you pay more and get less.

go down this road.

think government monitoring of
ety worked for Walkerton?

think government monitoring of
safety will work for you?

PP and demand that Bill 137 be withdrawn.

Read this now.

Ontario government to privatize road safety

that means:

Companies will cut corners to keep profits high.

Costs will vary across Ontario.

Private businesses will gain access to confidential information, including medical data.

It opens the door to corruption.

It loses accountability.

Responsibility:

The government is responsible for public safety.

Don't hand it to this responsibility.

Road safety affects us all – drivers,

trucks, and pedestrians.

Let's demand the government bring the Walkerton

level of public safety to our roads.

Consequences:

• A driver's licence is great ID and many jobs

• Inspectors and truck inspectors are

• Offered bribes to "overlook" dangerous

Bill 137 lets the government privatize all aspects of road safety.

Know the risks:

- Unqualified drivers who got their licences through bribery.
- Lax inspection of trucks.
- More flying wheels.
- Unsafe loads.
- Tired truckers over their legal limit of time behind the wheel.
- Investigation and enforcement staff with inadequate training and experience.
- Inspectors tempted by bribes to pass unsafe trucks.

Demand safe roads.

Demand the

government

withdraw Bill 137
