

THE PREMIER'S PRIORITIES ARE ON THE WRONG SIDE OF THE DOMM.

It's 2010 in Ontario. Children's Aid Societies are facing bankruptcy. Hospitals are laying off staff. Children with mental health issues are growing up before they get treatment. And the McGuinty Liberals have wiped out the nutrition allowance that helped 124,000 people on social assistance get enough to eat.

Meanwhile, tens of thousands of regular working people are taking a pay cut. Many work part-time for wages that barely top \$20,000 to \$30,000 a year. Yet top managers keep raking in fat bonuses. And profitable corporations like the big banks get new tax breaks every year.

TELL THE PREMIER IT'S TIME HE GOT HIS PRIORITIES RIGHT SIDE UP.
