“A lack of local banking services is particularly injurious to senior citizens who cannot get around easily, and this results in a disincentive for people to live in small rural communities.

I believe the government is obligated to provide financial services in those areas where population levels demonstrate a need for them and where financial benefit can be determined.

Unlike the private sector banks, the Province of Ontario Savings Office is not profit-oriented. It does not compete with the private sector; rather it is geared to providing necessary services to communities...”

-Hon. Bob Runciman, Minister of Public Safety (quoted in 1989)

We agree! Stop the proposed sale of the Savings Office.
