DEAR SIR /MADAM

RE -: APPRECIATION

Kwezana Old Age Centre started operating in 2002 with a purpose of rendering preventative services to address abuse of older persons. What is impressive is the fact that the centre was initiated by the older persons and Volunteers who are working integrated with stakeholders to provide quality care services.

I would like to take this opportunity to appreciate your intervention on showing your outstanding care in dealing with older persons. Your assistance seeks to recognise the older persons as valuable citizens of our country who uphold government ethics at all costs and pursue truth relentlessly, your assistant also will enable the older person to be recognised as a group who can contribute significantly in the uplifting rural communities and improving their socio-economic development.

On behalf of the department, I would like to express our sincere word of gratitude for being hands on in the rendering of effective services to older persons of our area.

You put the older persons and volunteers on path towards development and your assistance is highly appreciated and will never be forgotten.

Yours in service

Gara NM
